

In the app directory, under tests folder, run pytest to generate the output of running all the test cases. A sample is as seen below:

```
tejas9naik@Tejass-MacBook-Pro tests % pytest
===== test session starts =====
platform darwin -- Python 3.10.9, pytest-7.2.2, pluggy-1.0.0
rootdir: /Users/tejas9naik/Desktop/spring23-lab2-srujan-tejasnaik/src/app/tests
plugins: anyio-3.6.2
collected 4 items

test_app.py .... [100%]

===== 4 passed in 0.07s =====
```
